

Laundering Instructions

When you receive your shirt, please try on for fit. If your shirt fits perfectly out of the box, launder *in cold water* and hang dry *to prevent any shrinkage*. Commercial laundries will use cold water, upon request. We can adjust your sizing in any future orders.

If the shirt seems a little big, remember, we do allow for normal shrinkage (about ½" in collar and 1" in sleeves) Running our shirts through a hot water and tumble dry cycle 2-3 times (or the commercial laundry) will ensure proper size. Most shrinkage will occur with these initial launderings.

Please DO NOT wash/wear your shirt(s) if you wish to return or exchange.
Custom shirts are final sale.
