Fit Options:

Option #1: Custom Body/Collar

Pair your desired collar size with a body size one size smaller than the collar, e.g., pairing a 16 collar with a 15 ½ body. Your custom configuration will be virtually the same as a size 16 Brooks Brothers Madison Fit. We can also pair your desired collar size with a body size two sizes smaller, e.g., 16 collar with a 15 body or three sizes smaller, e.g., 16 collar with a 14 ½ body.

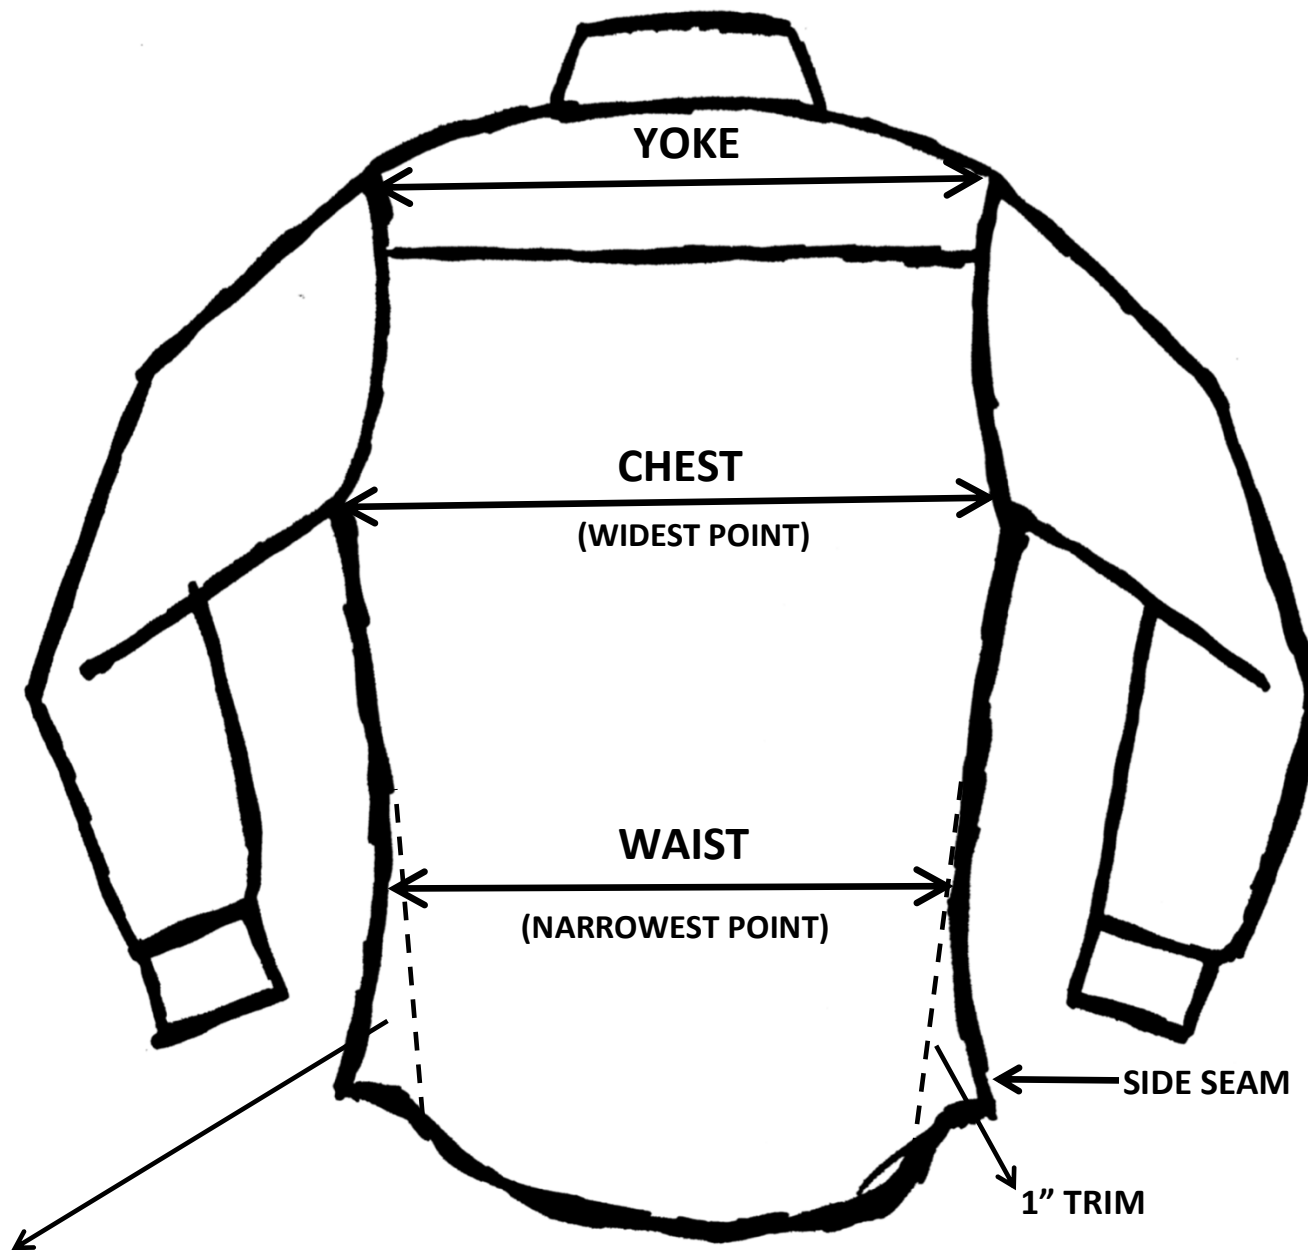

Each smaller body size reduces the chest and waist by 2", and the shoulder by ½". **Caveat:** the shoulder/yoke width of the body must meet your minimum shoulder requirement, or the shirt will be too small and not wearable.

Option #2: Waist Taper

Add a 2", 4" or 6" taper at the side seam. The waist taper reduces at the waist only. A 2" taper will take out 1" at each side seam, 4" taper takes out 2" at each side seam and a 6" taper takes out 3" at each side seam. This option removes extra fabric below the waist and reduces the waist slightly. The chest size is not reduced.

Option #1 and **Option #2** can be combined in one shirt, e.g., 15 body x 35 sleeve with 2" taper; 15 ½ collar.

***Custom Charges apply.** All custom shirts are *final sale*.

1" TRIM - EXAMPLE OF OPTION #2, 2" WAIST TAPER OPTION. TRIMS 1" OFF EACH SIDE SEAM, TAPERING UP ABOVE WAIST 10-11." REDUCES EXCESS BELOW WAIST AND REDUCES WAIST MEASUREMENT ½"+.
